

The Student Loan Repayment Program

September 1, 2022

The Student Loan Repayment Program is the latest addition to the Company's benefits lineup. The Company wants to assist employees with reducing their student loan debt. This benefit provides eligible employees with a company funded payment sent directly to their loan service provider. The payment is tax free and is in addition to your salary and other benefits you receive. **Please note: This program is not associated with any government programs or incentives.**

Overview

For employees who are eligible for the Student Loan Repayment Program (the "Program") and sign up to participate, The Company will make payments directly to the employee's selected eligible loan service provider by the 28th of the month. Only one loan at a time may be selected by the employee for payment under this Program.

This payment is designed to help employees pay their loans off faster and save on interest; employees should continue making the minimum monthly payments to their loan service provider. Based on the monthly timing of the payment, employees should reach out to their loan service provider to better determine how the payment will be applied (e.g. principal versus interest).

Employee Eligibility

- Employee must be classified as a full-time employee; other classifications such as part time, interns, etc., are not eligible.
- Rehired employees classified as full-time employees satisfying 3 years of employment from their adjusted date of hire are eligible if they have not previously met their lifetime maximum.
- Employee must be in good standing. Employees on a Performance Improvement Plan (PIP) aren't eligible. If an employee is placed on a PIP after being approved for the Program, the employee's participation is suspended.
- Employees must be actively at work and not on a leave of absence at the time of their application. If an employee is placed on a LOA after being approved for the program, the employee's participation will continue if the leave is FML. If the leave is non FML then payments are suspended.
