Fidelity NetBenefits® Decision Support Tool

The Decision Support Tool is a resource to assist you with comparing the medical plans so you can choose the best plan for you and your family's needs.

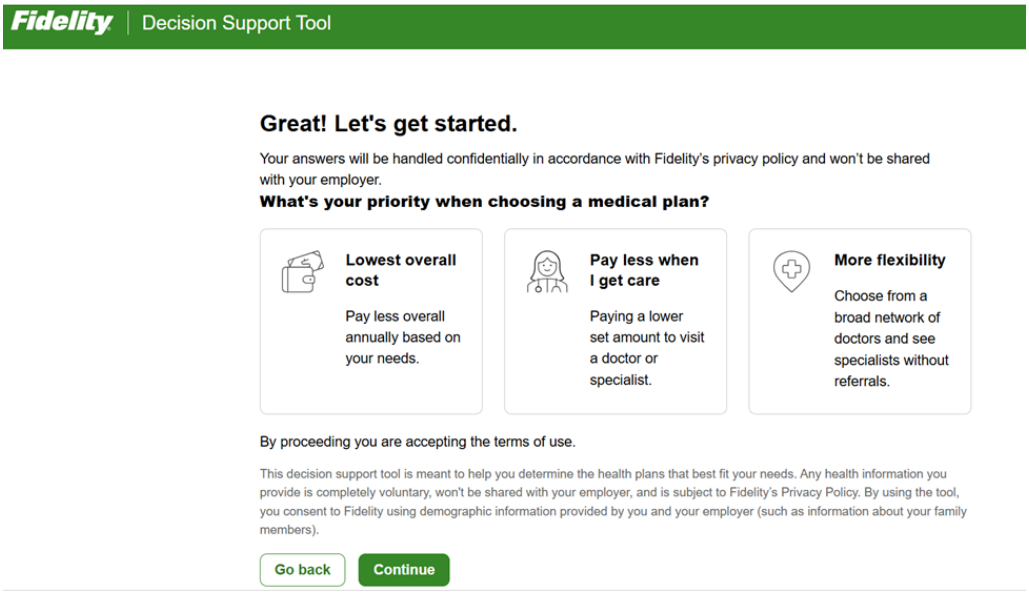

1 **Log onto Fidelity's site at www.netbenefits.com to begin your enrollment. After the questions about who you want to cover and your tobacco use, the system will default you to a pop-up box giving you the option to get help with choosing a medical plan.**

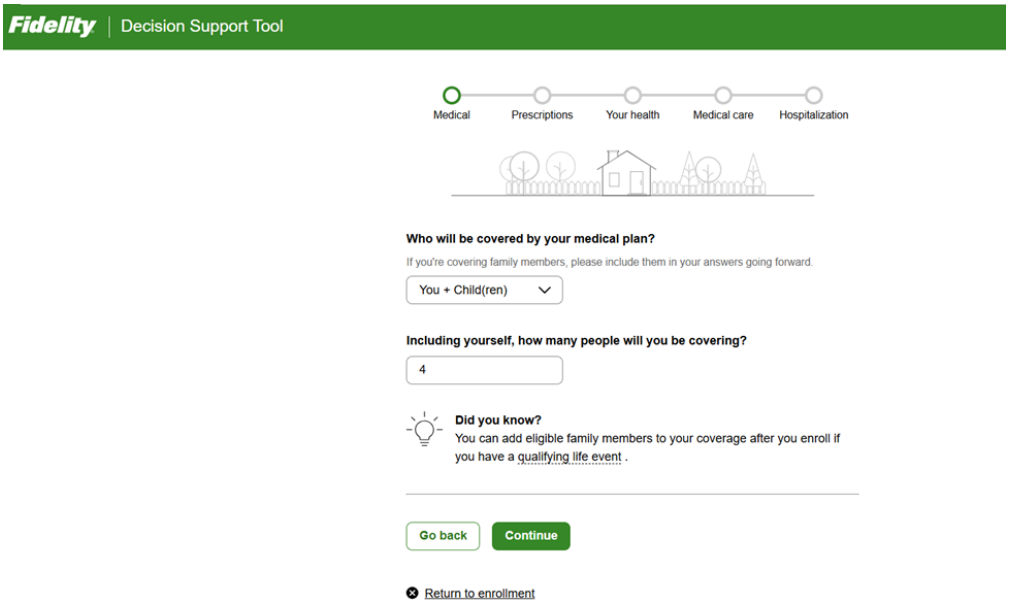

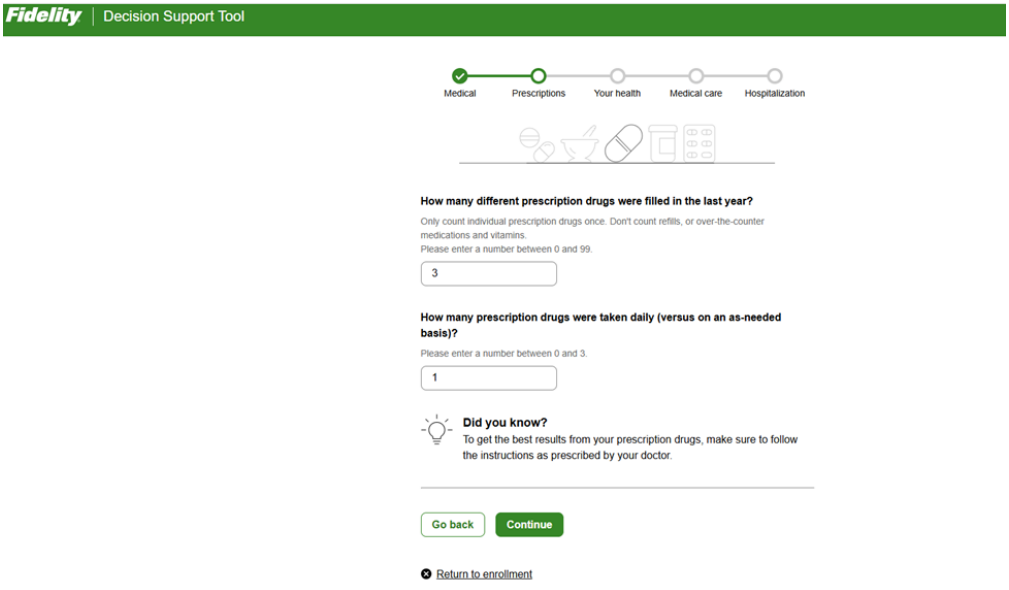

2 To proceed with the tool, Select Get Help Choosing a Plan. You will be routed to the Fidelity Decision Support Tool. Select Get Started to proceed.

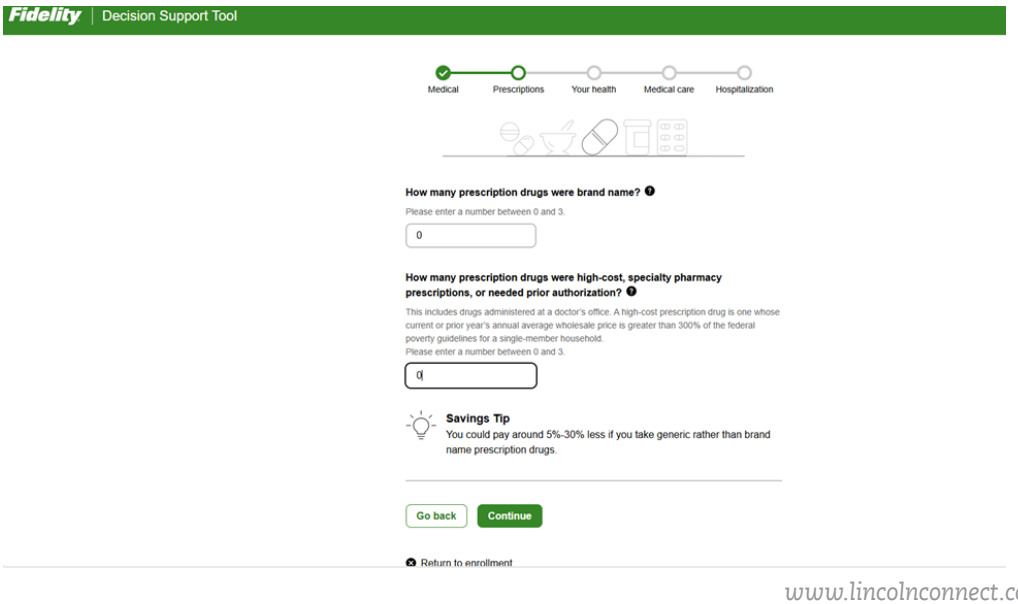

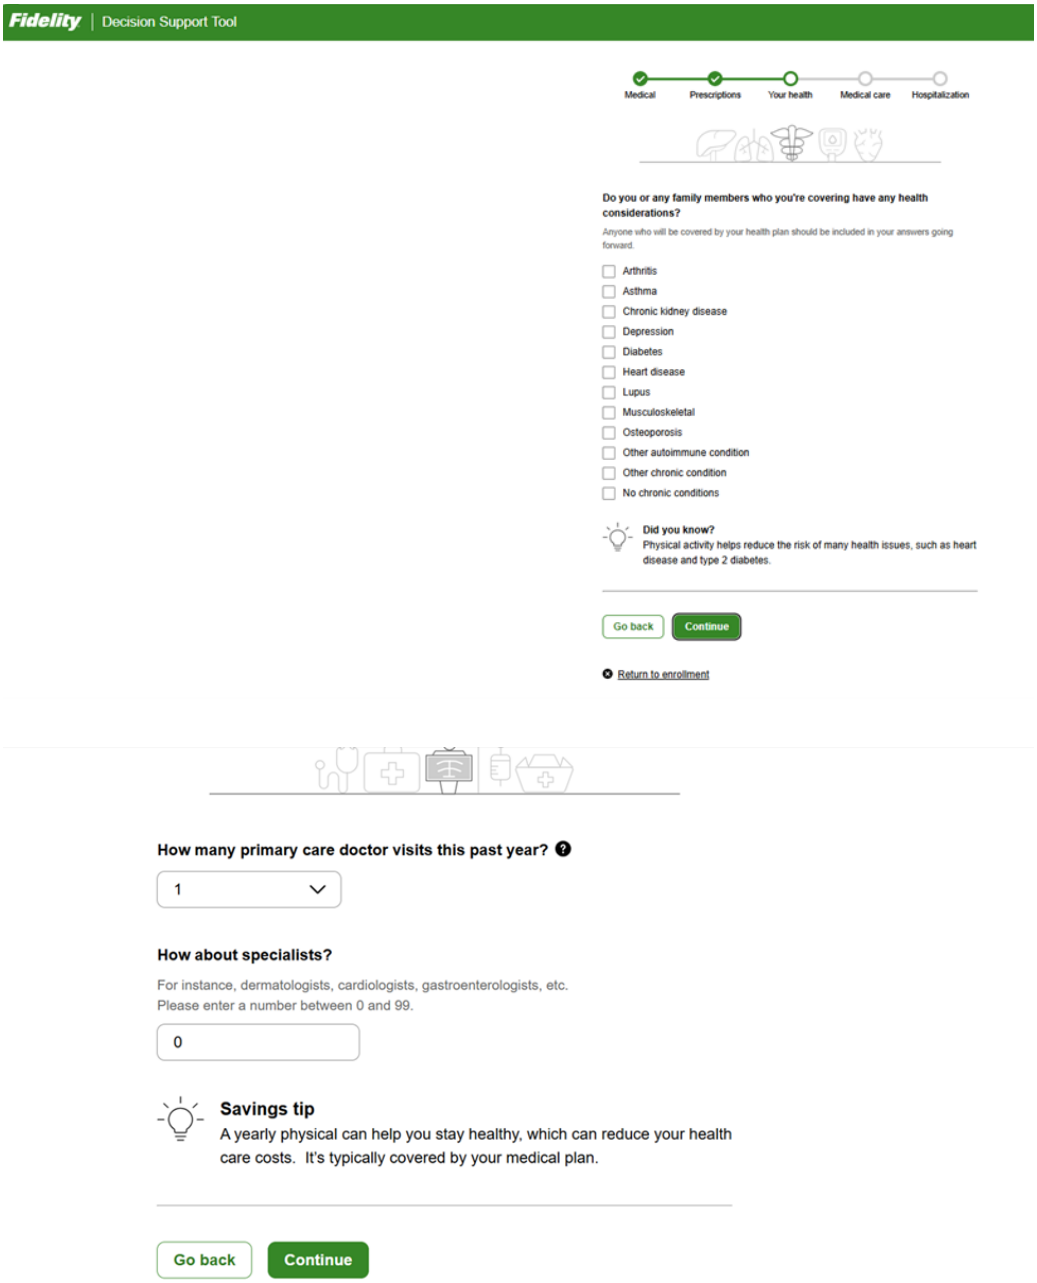

3 The system will walk you through a series of questions about who you will enroll on your plan, prescriptions, your health, etc.

How many prescription drugs were brand name?
Please enter a number between 0 and 3.
0
How many prescription drugs were high-cost, specialty pharmacy prescriptions, or needed prior authorization?
This includes drugs administered at a doctor's office. A high-cost prescription drug is one whose current or prior year's annual average wholesale price is greater than 300% of the federal poverty guidelines for a single-member household.
Please enter a number between 0 and 3.
0
Savings Tip
You could pay around 5%-30% less if you take generic rather than brand name prescription drugs.

How many primary care doctor visits this past year?
1
How about specialists?
For instance, dermatologists, cardiologists, gastroenterologists, etc.
Please enter a number between 0 and 99.
0
Savings tip
A yearly physical can help you stay healthy, which can reduce your health care costs. It's typically covered by your medical plan.
